Independent Auditors' Report

To the Board of School Directors North Penn School District Lansdale, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the North Penn School District as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the North Penn School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Board of School Directors North Penn School District Lansdale, Pennsylvania

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the North Penn School District as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

For the year ended June 30, 2016, the North Penn School District adopted new accounting guidance, implementing Governmental Accounting Standards Board Statements No. 72, Fair Value Measurement and Application and No. 79, Certain External Investment Pools and Pool Participants. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6 through 15, budgetary comparison information on pages 55 through 57, schedule of the school district's proportionate share of the net pension liability on page 58, schedule of the school district's contributions on page 59, and postemployment benefits other than pension funding progress on page 60 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the North Penn School District's basic financial statements. The supplementary information listed in the table of contents and the schedule of expenditures of federal and certain state awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

To the Board of School Directors North Penn School District Lansdale, Pennsylvania

The supplementary information and the schedule of expenditures of federal and certain state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedule of expenditures of federal and certain state awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2016, on our consideration of the North Penn School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the North Penn School District's internal control over financial reporting and compliance.

Oaks, Pennsylvania December 9, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED JUNE 30, 2016

This section of the North Penn School District's annual financial report presents its discussion and analysis of the School District's financial performance during the fiscal year ending June 30, 2016.

FINANCIAL HIGHLIGHTS

The School District's budget is prepared according to Pennsylvania law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The School District uses site-based budgeting and the budgeting system is designed to tightly control site budgets but provide flexibility for site management.

For the General Fund, actual revenues were \$2.3 million above the original budget revenues. The strong revenues are a reflection of an improving economy and conservative budgeting. Actual expenditures totaled \$239.0 million and included expenditures for additional grants received subsequent to budget preparation. Actual revenues exceeded actual expenditures by \$100,189.

OVERVIEW OF THE FINANCIAL STATEMENTS

The accompanying financial statements have been prepared in accordance with GASB Statement No. 34 and present both government-wide and fund level financial statements using both the accrual and modified accrual basis of accounting, respectively.

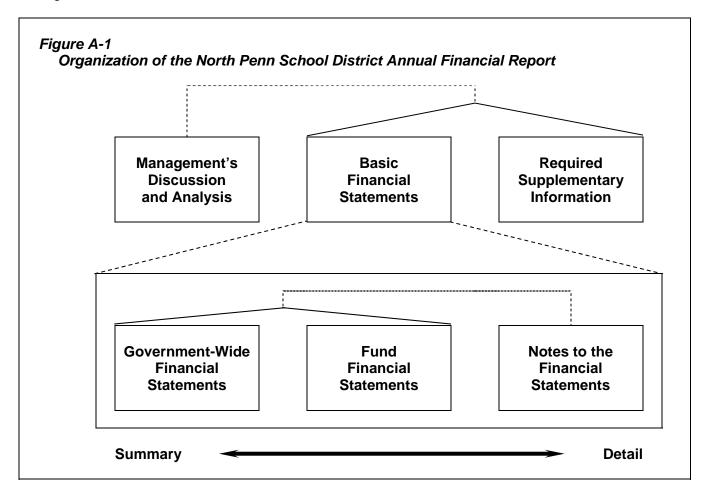

This annual report consists of three parts: management's discussion and analysis (this section), basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are government-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.
 - ✓ Governmental Funds statements tell how basic services, such as regular and special education, were financed in the short term, as well as what remains for future spending.
 - ✓ Proprietary Funds statements offer short- and long-term financial information about the activities the District operates like businesses, such as School Nutrition Services.
 - ✓ Fiduciary Funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

YEAR ENDED JUNE 30, 2016

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED JUNE 30, 2016

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of the management's discussion and analysis highlights the structure and contents of each of the statements.

Figure A-2 Major Featu	ıres of the Governmen	t-Wide and Fund Final	ncial Statements					
	Government-Wide	Fund Financial Statements						
	Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds				
Scope	Entire School District (except Fiduciary Funds)	The activities of the School District that are not proprietary or fiduciary, such as special education and building maintenance	Activities the School District operates similar to private businesses: school nutrition services and community education	Instances in which the School District administers resources on behalf of someone else, such as scholarship programs and student activities monies				
Required financial statements	 Statement of net assets Statement of activities 	Balance sheet Statement of revenues, expenditures and changes in fund balances	Statement of net assets Statement of revenues, expenses and changes in net assets Statement of cash flows	Statement of fiduciary net assets Statement of changes in fiduciary net assets

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

YEAR ENDED JUNE 30, 2016

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private sector companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position, the difference between the District's assets and liabilities, is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indication of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, one needs to consider additional nonfinancial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the District's activities are divided into two categories:

- **Governmental Activities**: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state and federal subsidies and grants finance most of these activities.
- **Business-Type Activities**: The District's community education, extended child care and school nutrition service programs are included here. The District charges fees to cover the costs of the services provided.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds, not on the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues.

The District has three kinds of funds:

• Governmental Funds: Most of the District's basic services are included in Governmental Funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the Governmental Funds statements provide a detailed short-term view that help one determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the long-term focus of the District-wide statements, additional information accompanying the Governmental Funds statements explains the relationship (or differences) between them.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED JUNE 30, 2016

- Proprietary Funds: Services for which the District charges a fee are generally reported
 in Proprietary Funds. Proprietary Funds are reported in the same way as the
 District-wide statements. The District's Enterprise Funds (one type of Proprietary Fund)
 report its business-type activities, providing more detail and additional information such
 as cash flows.
- **Fiduciary Funds**: The District is the trustee, or fiduciary, for assets that belong to others, such as the Scholarship Fund and the Student Activities Funds. The District is responsible for ensuring the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the District-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

- Total assets increased by \$12.2 million of the School District's governmental activities, mainly due to building renovations (construction in progress) resulting from a new bond issue. Net assets of the governmental activities increased by \$1.4 million due to a reduction in deferred inflows of resources as a result of the pension liability (see note L). Net assets of the business-type activities increased by \$0.2 million due to a reduction in deferred inflows of resources as a result of the pension liability (see note L and Figure A-3).
- Program specific revenues in the form of charges for services and grants and contributions accounted for \$44.6 million or 18% of total revenues. General revenues accounted for \$198.2 million or 82% of total revenues (Figure A-4).
- Governmental fund expenses totaled \$246.9 million of which \$151.6 million was spent
 on instructional services, \$63.8 million was spent on support services, \$2.9 million was
 spent on non-instructional services, \$14.3 million was spent for debt service payments
 and \$14.3 million was spent on facilities acquisition, construction, and improvement
 services (Page 20).
- The North Penn Education Association (NPEA), an affiliation of the Pennsylvania State Education Teachers Association, represents the professional staff of the District. The District and NPEA have a one-year agreement that expires June 30, 2017.
- The North Penn Educational Support Personnel Association (NPESPA), an affiliation of the Pennsylvania State Education Teachers Association, represents part of the support staff of the District. The District and NPESPA have a three-year agreement that expires June 30, 2017.
- The District administrators have a one-year agreement with the Board of School Directors that expires June 30, 2017.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED JUNE 30, 2016

Governmental Activities

Governmental activities consist of the General Fund, Bond Funds and the Debt Service Fund. Total governmental assets increased by \$12.2 million and total liabilities increased by \$41.2 million due to the net pension liability of \$381.3 million. The District's Total Net Assets increased by approximately \$1.4 million (Figure A-3).

The District depends heavily on local taxes to fund the District's programs. For 2015-2016, local sources comprised 79.6% of total revenue, of which current real estate taxes were \$160.0 million, delinquent real estate taxes were \$2.6 million, transfer taxes were \$3.2 million and earned income taxes were \$16.3 million. Other revenue comes from state subsidies (19.0%) and federal grants and other sources (1.4%).

Business-Type Activities

Business-type activities include the School Nutrition Services Program, the Extended School Care Program and the Community Education Program. Each Enterprise Fund is operated separately. These programs had operating and non-operating revenues of \$8.1 million and expenses of approximately \$7.9 million, resulting in a \$254 thousand increase in net position for the year. The programs are designed to operate at or near break-even so that the cost for the services offered will benefit the District residents. Business-type activities received no support from tax revenues (Figure A-4).

The School Nutrition Services Program provides school lunches and operates a breakfast program as well as catering services. The School Nutrition Services Program receives both federal and state subsidies for lunch and breakfast programs. It also receives some government commodities on a routine basis. The majority of revenue comes from sales to students and other users of its services.

The Extended School Care Program provides before and after school care and summer camps for the resident children of the District. Revenues are generated by those utilizing the services.

The Community Education Program provides trips, tours and classes for the residents of the North Penn area. Evening classes are held at several of the District's schools. These programs cater to the improvement of the quality of life for the residents of the North Penn area.

General Fund Budgetary Highlights

The economic environment continued to stabilize and improve over the past year. Real estate tax collections remained strong, as did the realty transfer tax and earned income tax. In fact, earned income tax collections exceeded budget by over \$1.2 million and realty transfer tax exceeded the budget by \$1.0 million. Interest income exceeded budget by \$160 thousand as a result of proactive investments, despite low interest rates. On the expenditure side, actual expenditures for the year were less than budgeted expenditures.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED JUNE 30, 2016

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

For the North Penn School District, capital assets include land, buildings, furniture and equipment, vehicles and other items that meet the following criteria:

- a. The individual asset must have a useful life greater than one year.
- b. The individual asset cost is equal to or greater than \$5,000 or was purchased with debt proceeds.

The District maintains fixed asset records for the above capital assets as well as for any item costing over \$1,000 with a life extending at least one year. Each department or school is responsible for the protection of these assets.

The District maintains more than 12,000 computers for students and staff. Technology equipment is replaced when the functionality requires it, not based on a set time period. The District embarked on a 1:1 student computer initiative in the summer of 2016. The District maintains approximately 145 buses and 18 vans that transport the District's students over 2 million miles per year. The District also transports approximately 3,000 non-public students each year.

Regular improvements to the buildings of the District are ongoing. Montgomery Elementary School renovations commenced during the year with an anticipated construction completion date of August, 2017.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED JUNE 30, 2016

Long-Term Obligations

Long-term obligations increased by \$39.1 million, primarily due to the net pension liability as per GASB Statement No. 68. The short-term debt increased by \$1.4 million due to the schedule of bond, note and lease obligations (Figure A-6).

Total

FACTORS BEARING ON THE DISTRICT'S FUTURE

As the preceding information shows, the School District maintains a healthy investment in fixed assets to support and provide comprehensive educational services, considers future implications of current and ongoing financial obligations and prudently manages its financial assets. Academic performance is supported by regionally competitive per pupil spending. Balanced payment schedules on existing debt obligations should mean steady tax implications in the future.

Financial challenges face many school districts in the state of Pennsylvania and North Penn School District is not alone in this regard. With the passage of Act 1 of 2006, school districts are faced with a cap on the money that can be funded from a property tax increase. The cap is an inflationary index annually calculated by the Pennsylvania Department of Education (PDE). Act 1 does provide for some exceptions that permit districts to increase property taxes in excess of the cap. Exceptions are approved by the PDE. Limited tax relief arrived starting in the 2008-2009 fiscal year as the state distributed a portion of gambling revenue to offset real estate tax increases. The School District was fortunate to receive \$4,949,846 in the 2015-2016 fiscal year that offset property taxes for those property owners who qualified for the homestead exemption.

The 2015-2016 school year was another strong year financially for the North Penn School District. The District was able to make a \$2,000,000 transfer to the Capital Reserve Fund to support capital projects. Finally, the unassigned fund balance grew from \$19,237,296 to \$19,334,399. Total fund balances amounted to a fiscally healthy \$36,736,864.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED JUNE 30, 2016

North Penn School District faces the common problem of escalating costs for employee benefits, particularly the medical benefit cost and the retirement expense of the PSERS system. The Affordable Healthcare Act may increase medical benefit costs as a result of the "Cadillac" tax. Each of these costs is established by outside influences and is not, in large part, a discretionary cost that can be controlled by the District.

North Penn School District has committed itself to educational and financial excellence. The District's system of budgeting and internal controls is well regarded and consistently followed. The District was recognized by the Association of School Business Officials International with the prestigious Meritorious Budget Award for its 2015-16 budget. Continued diligence in all financial matters will be a key component of continued successful financial performance well into the future.

CONTACTING THE SCHOOL DISTRICT FINANCIAL MANAGEMENT

The financial report is designed to provide the citizens, taxpayers, parents, students, investors and creditors with a general overview of the School District's finances and to show the District's accountability for the money it receives. If you have questions about this report or wish to request additional financial information, please contact Steve Skrocki, Director of Business Administration, North Penn School District, 401 East Hancock Street, Lansdale, PA 19446, 215-853-1010, skrocksb@npenn.org or visit the School District's website at www.npenn.org.

RECONCILIATION OF TOTAL GOVERNMENTAL FUNDS BALANCES TO NET POSITION OF GOVERNMENTAL ACTIVITIES JUNE 30, 2016

TOTAL GOVERNMENTAL FUNDS BALANCES	\$	52,103,867
Capital assets used in governmental activities are not current financial resources and therefore are not reported in the funds. These assets consist of:		
Land		8,431,732
Site improvements		228,751
Buildings and building improvements		140,360,909
Furniture and equipment		9,151,232
Construction in progress		29,326,708
Deferred charges used in governmental activities are not financial resources and therefore are not reported in the funds. These assets consist of:		
Deferred charges		1,422,175
Accumulated amortization		(559,193)
Deferred inflows and outflows of resources related to pension activities are not		
financial resources and therefore, not reported in the governmental funds.		40,698,000
The assets and liabilities of certain Internal Service Funds are not included in the fund financial statements but are included in the governmental activities on		
the statement of net position.		7,297,021
Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of:		
Accrued interest		(1,158,497)
Bonds and notes payable		(101,050,187)
Lease-purchase obligations		(3,389,241)
Compensated absences		(4,276,087)
Net pension liability		(381,304,000)
Net OPEB obligation		(5,517,309)
Some of the School District's revenues will be collected after year-end but are not available soon enough to pay for the current period's expenditures and		
therefore are deferred in the funds.	_	2,414,372

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2016

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$	1,875,191
Capital outlays are reported in Governmental Funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$17,071,568) exceeded depreciation (\$9,288,907) in the current period.		7,782,661
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins and donations) is to decrease net assets.		(599)
Deferred charges are reported in Governmental Funds as expenditures and premiums are reported as revenues. However, in the statement of activities, the cost of those assets is allocated over the term lives of debt instruments as amortization expense. This is the amount of amortization in the current period.		756,568
Because some property taxes will not be collected for several months after the School District's fiscal year ends, they are not considered as "available" revenues in the Governmental Funds. Unavailable tax revenues increased by this amount this year.		60,627
Borrowing of long-term debt is a revenue in the Governmental Funds but increases long-term liabilities in the statement of net assets. This is the amount of capital leases entered into during the year.		(4,179,953)
Bond proceeds provide current financial resources to Governmental Funds, but issuing debt increases long-term liabilities in the statement of net position. Also, Governmental Funds report the effect of premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This is the net effect of these differences in the treatment of long-term debt and related items.		(9,998,353)
Repayment of bond principal is an expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the statement of net position.		10,480,000
Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in Governmental Funds.		
Accrued interest not reflected in Governmental Funds		103,322
Repayment of capital lease principal is an expenditure in Governmental Funds, but the repayment reduces long-term liabilities in the statement of net position.		1,795,872
In the statement of activities, certain operating expensescompensated absences (vacations and sick leave) and special termination benefits (early retirement)are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by		
the amount of financial resources used (essentially, the amounts actually paid).		(398,889)
Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in Governmental Funds.		(6,961,000)
The net change in the liability for the net OPEB obligation is reported in the government-wide statements but not in the Governmental Funds statements.		(522,074)
Internal Service Funds are used by management to charge the costs of certain activities, such as health insurance, to individual funds. The net revenue (expense) of certain Internal Service Funds is reported with governmental activities.		619,868

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the North Penn School District (the "School District") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

Reporting Entity

The accompanying basic financial statements comply with the provisions of GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*, in that the financial statements include all organizations, activities and functions for which the School District is financially accountable. Financial accountability is defined as the appointment of a voting majority of a component unit's board and either (1) the School District's ability to impose its will over a component unit or (2) the possibility that the component unit will provide a financial benefit or impose a financial burden on the School District. In addition, component units can be organizations for which the nature and significance of their relationship with the School District are such that exclusion would cause the School District's financial statements to be misleading. This report presents the activities of the North Penn School District. Based upon the application of these criteria, the School District is not a component unit of another reporting entity. Currently, the School District does not have any potential component units that should be included in the School District's reporting entity.

Basis of Presentation and Accounting

Government-Wide Financial Statements - The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for Fiduciary Funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the Proprietary Funds financial statements but differs from the manner in which Governmental Funds financial statements are prepared. Governmental Funds financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for Governmental Funds. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School District and for each function or program of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function.

Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements - Fund financial statements report detailed information about the School District. The focus of Governmental and Proprietary Funds financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column (Other Governmental Funds). Fiduciary Funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All Governmental Funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenues to be available if they are collected within 60 days of the end of the fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments are recorded only when payment is due. The financial statements for Governmental Funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All Proprietary Fund Types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Proprietary Funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a Proprietary Fund's principal ongoing operations. The principal operating revenues of the School District's Enterprise Funds are charges to customers for sales and services. Operating expenses for Enterprise Funds include cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Trust Funds are reported using the economic resources measurement focus.

When both restricted and unrestricted resources are available for use, it is the School District's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the categories governmental, proprietary and fiduciary.

Governmental Funds

General Fund - The General Fund is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available for any purpose provided it is expended or transferred according to the general laws of Pennsylvania.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest and related costs.

Capital Project Funds - Capital Project Funds are used to account for financial resources to be used for the acquisition and construction of capital equipment and improvements in accordance with the applicable general obligation bond agreements. The School District's Capital Reserve Fund is accounted for in this fund type.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Proprietary Funds

Enterprise Funds - The Enterprise Funds (School Nutrition Services Fund, Extended Care Fund and Community Education Fund) are used to account for operations (1) that are financed and operated in a manner similar to private business enterprises--where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or (2) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income are appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service Fund - The Internal Service Fund is used to account for the financing of goods or services provided by an activity to other departments, funds, or component units of the School District on a cost-reimbursement basis. Because the principal users of the internal services are the School District's governmental activities, the financial statements of the Internal Service Fund are consolidated into the governmental activities column when presented in the government-wide financial statements.

Self-Insurance Fund - The Self-Insurance Fund is used to account for all financial transactions related to the administration of the School District's self-insured health plans.

Fiduciary Funds

Trust and Agency Funds - Trust and Agency Funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Cash and Cash Equivalents

The School District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

<u>Investments</u>

The School District has adopted GASB Statements No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, No. 72, Fair Value Measurement and Application and No. 79 Certain External Investment Pools and Pool Participants. In accordance with these Statements, investments in marketable securities with readily determinable fair value and all investments in debt securities are reported at their fair values. Investments in qualifying external investment pools are reported at amortized cost basis.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Short-Term Interfund Receivables/Payables

During the course of operations, transactions may occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the Governmental Funds balance sheet. Short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the statement of net position, except for amounts due between governmental and business-type activities, which, when present, are shown as internal balances.

Inventories and Prepaid Items

Inventory of food and milk in the School Nutrition Services Fund consists of supplies purchased and donated commodities received from the federal government. The donated commodities are valued at their fair market value in accordance with the *Manual of Accounting for Pennsylvania School Systems - Food Service Fund.* Food and supplies are carried at cost using the first-in, first-out method. Inventories of Governmental Funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

Capital Assets

Capital assets, which include property, plant, equipment and construction in progress, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The School District defines a capital asset as an asset with an initial, individual cost equal to or greater than \$5,000 or purchased with debt proceeds and must also have an estimated useful life in excess of one year. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Property, plant and equipment of the School District are depreciated using the straight-line method over the following estimated useful lives:

	Years
Site improvements	15-20
Buildings and building improvements	10-45
Furniture and equipment	5-20

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Unearned Revenue

Unearned revenue arises when assets are recognized before the revenue recognition criteria have been satisfied. Such is the case when resources are received by the School District before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when revenue recognition criteria are met or when the School District has a legal claim to the resources, the liability for unearned revenue is removed from the Governmental Funds balance sheet and revenue is recognized.

Long-Term Obligations

In the government-wide financial statements and Proprietary Fund Types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or Proprietary Fund Type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are recognized during the period in which they were incurred.

In the fund financial statements, Governmental Funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Compensated Absences

It is the School District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. The benefits are accrued when incurred in the government-wide, Proprietary Funds and Fiduciary Funds financial statements. A liability for these amounts is reported in Governmental Funds only if they have matured, for example, as a result of employee resignations and retirements.

Fund Equity

In the fund financial statements, Governmental Funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net Position

Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. The net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted on the government-wide statements when there are limitations imposed on its use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District has only two items that qualify for reporting in this category. They are the deferred charge on refunding reported in the government-wide statement of net position and the deferred outflow related to pension activity, reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition prices. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflow related to pension activity is the result of changes in the School District's proportionate share of the total plan from year to year, the difference between actual employer contributions and the School District's proportionate share of total contributions, and actual contributions subsequent to the measurement date.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School District has two items that qualify for reporting in this category. The first item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. The second item, deferred inflows related to pension activity, are reported in the government-wide statement of net position and the proprietary fund statement of net position. The deferred inflow related to pension activity is the result of differences between projected and actual investment earnings. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Net Position Flow Assumption

Sometimes the School District will fund outlays for a particular purpose for both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and Proprietary Fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the School District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance

The School District has previously implemented GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on the School District's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- Nonspendable Amounts that cannot be spent either because they are not in spendable form or because of legal or contractual constraints. Fund balance types of this category are inventories and prepaid expenditures.
- Restricted Amounts that can be spent only for specific purposes stipulated by external resource providers or through enabling legislation. Fund balance types in this category include amounts for capital projects.
- Committed Amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and do not lapse at year-end. Fund balance of this type is for the retirement rate increase. Since the School District is required to contribute to the retirement plan, the retirement rate increase has been set up by the Board of School Directors to provide for any fluctuations to the rate increases. Additional amounts have been committed for future capital projects.
- Assigned Amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund balance may be assigned by the School District Manager and/or School District Finance Director. Fund balance of this type includes amounts for debt service along with funds to be set aside for self-insurance funding.
- Unassigned Amounts not contained in other classifications. Unassigned amounts
 are technically available for any purpose. It is the policy of the School District to
 follow state requirements that unassigned fund balance will not exceed 8% of the
 subsequent year operating budget in the unassigned category.

The Board of School Directors establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. Assigned fund balance is intended to be used by the government for specific purposes but does not meet the criteria to be classified as restricted or committed. The details of the fund balances are included in the Governmental Funds balance sheet (page 18). Restricted funds are used first as appropriate, followed by committed resources and then assigned resources, to the extent that expenditure authority has been budgeted by the Board of School Directors. The School District does reserve the right to first reduce unassigned fund balance to defer the use of these other classified funds. In the event that unassigned fund balance becomes zero, then assigned and committed fund balances are used in that order.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE B - CASH AND INVESTMENTS

<u>Cash</u>

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be returned to it. Of the bank balance, \$497,822 was covered by federal depository insurance. As of June 30, 2016, \$35,731,941 of the School District's bank balance of \$36,229,763 was exposed to custodial credit risk as follows:

Uninsured and collateral held by pledging bank's trust department not in the School District's name

\$ 35,731,941

Interest Rate Risk - The School District's investment policy limits investment maturities in accordance with the Commonwealth of Pennsylvania School Code as a means of managing its exposure to fair value losses arising from increasing interest rates.

Investments

As of June 30, 2016, the School District had the following investments and maturities:

						Investment Maturities
		Amortized			_	Less Than
Investment Type		Cost	Fair Value			One Year
State investment pools	\$	557,660	\$	-	\$	557,660
Mutual funds		-		15,014,246		15,014,246
Certificates of deposit			_	31,936,016	_	31,936,016
	\$ <u></u>	557,660	\$_	46,950,262	\$ <u>_</u>	47,507,922

Investments held with qualifying external state investment pools are valued at amortized cost in accordance with GASB Statement No. 79.

Credit Risk - State law permits the School District to invest funds in the following types of investments:

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE B - CASH AND INVESTMENTS (Continued)

Obligations of (1) the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (2) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth, or (3) any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.

The School District's investment policy does not further limit its investment choices. As of June 30, 2016, the School District's investment in the state investment pool was rated AAAm by Standard & Poor's.

Although not registered with the Securities and Exchange Commission and not subject to formal regulatory oversight, the state investment pool is subject to an independent annual audit. The fair value in the external investment pool is equivalent to the value of the pool shares.

Concentration of Credit Risk - The School District does not have an investment in any one issue that is in excess of 5% of the School District's total investments.

NOTE C - TAXES - REAL ESTATE AND OTHER

The School Board is authorized by state law to levy property taxes for School District operations, capital improvements and debt service. In addition, the School District levies a .5% earned income tax. Property taxes are based on assessed valuations of real property within the School District.

Taxes are levied on July 1 and payable in the following periods:

Discount period	July 1 to August 31 - 2% of gross levy
Face period	September 1 to October 31
Penalty period	October 31 to collection - 10% of gross levy
Lien date	January 15

School District taxes are billed and collected by the local elected tax collectors. Property taxes attach as an enforceable lien on property as of July 1.

NOTE D - RECEIVABLES

Receivables at June 30, 2016, consisted of taxes, other revenue and intergovernmental grants and entitlements. The real estate taxes receivable account represents real estate transfer taxes and prior year uncollected tax levies. All receivables are considered fully collectible due to the ability to lien property for the nonpayment of taxes, the stable condition of state programs and the current year guarantee of federal funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE D - RECEIVABLES (Continued)

A summary of receivables by fund is as follows:

	-	General Fund	_	School Nutrition Services Fund	_	Extended Care Fund	-	Community Education Fund
Real estate taxes	\$	2,610,530	\$	-	\$	-	\$	-
Earned income taxes		42,584		-		-		-
Federal subsidies		949,352		116,836		-		-
State subsidies		6,962,591		5,177		-		-
Other revenue	-	805,884	-	16,479	_	11,270	-	131
	\$	11,370,941	\$_	138,492	\$	11,270	\$_	131

NOTE E - INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of June 30, 2016, is as follows:

Due to/from Other Funds

Receivable Fund	Payable Fund	_	Amount
General Fund General Fund General Fund Other Governmental Funds School Nutrition Services Fund	School Nutrition Services Fund Community Education Fund Extended Care Fund General Fund General Fund	\$	253,106 24,098 158,414 2,000,000 177
		_	2,435,795
Agency Funds Agency Funds	General Fund Community Education Fund	_	11,958 4,670
	,	_	16,628
		\$_	2,452,423

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE E - INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS (Continued)

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." The amounts between the General Fund, School Nutrition Services Fund, Extended Care Fund and Community Education Fund are for payroll. The amounts between the General Fund and Other Governmental Funds are for future capital projects. The amounts between the General Fund and the Self-Insurance Fund are for insurance premiums.

Interfund Transfers

Transfer In	Transfer Out		Amount
Capital Reserve Fund 2013 Bond Fund	General Fund 2016/2017 Bond Fund	\$	2,000,000 156,465
		\$ <u>_</u>	2,156,465

The Board approved a transfer from the General Fund to the Capital Reserve Fund. In addition, the School District made a transfer from the General Fund to the Self-Insurance Fund to fund insurance premiums.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE F - CAPITAL ASSETS

A summary of changes in capital assets is as follows:

NOTE G - LEASES

Capital Leases

The School District has entered into lease agreements as lessee for financing the acquisition of computers and buses. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date.

The assets acquired through capital leases are as follows:

Computer equipment	\$	5,475,281
Buses	<u> </u>	1,841,560
		7,316,841
Accumulated depreciation	(;	2,966,228)
	\$	4,350,613

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE G - LEASES (Continued)

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2016, were as follows:

Year Ending June 30,	
2017	\$ 1,541,135
2018	1,541,135
2019	287,711
2020	96,673_

PRESENT VALUE OF MINIMUM LEASE	Φ 0.000.044
PAYMENTS	\$3,389,241_

NOTE H - LONG-TERM DEBT

General Obligation Bonds and Note

The School District issues general obligation bonds and notes to provide funds for the acquisition and construction of major capital facilities. At June 30, 2016, the outstanding balance of general obligation bonds and note issued was \$97,765,000.

Annual debt service requirements to maturity for general obligation bonds and note are as follows:

Year Ending June 30,	_ Principal	_	Interest
2017	\$ 11,000,000	\$	3,390,947
2018	11,540,000		2,966,989
2019	12,140,000		2,530,734
2020	12,490,000		1,962,592
2021	11,405,000		1,398,499
2022 to 2026	39,190,000		2,319,270
	\$ 97,765,000	\$_	14,569,031

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE I - CHANGES IN LONG-TERM LIABILITIES

Long-term liability activity for the year ended June 30, 2016, was as follows:

		Maturity
	Interest Rate	Date
GENERAL OBLIGATION BONDS AND NOTE		
Bonds		
Series of 2008	3.50% to 4.25%	3/1/2018
Series of 2009	3.00% to 5.00%	9/1/2016
Series of 2010	2.00% to 5.00%	3/1/2020

TOTAL LONG-TERM LIABILITIES

The General Fund has been used to liquidate other long-term liabilities in prior years.

NOTE J - DEFEASED DEBT

In prior years, certain bonds were defeased in substance by placing an amount in irrevocable trusts to provide for all future debt service payments on the refunded bonds. Accordingly, the trust account assets and the liability for the in-substance defeased bonds are not included in the School District's financial statements.

As of June 30, 2016, the School District has defeased debt outstanding of \$13,245,000.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE K - UNEARNED REVENUE

General Fund

Program grants received prior to the incurrence of qualifying expenditures are recorded as deferred revenue. At June 30, 2016, unearned revenue consisted of \$284,638, which represents funds received to be used for future expenditures.

School Nutrition Services Fund

Unearned revenue of \$147,289 in the School Nutrition Services Fund represents the carryover of student deposits.

Extended Care Fund

Unearned revenue of \$133,564 represents deposits received for 2016-2017 school year programs.

Community Education Fund

Unearned revenue of \$96,962 represents deposits received for 2016-2017 school year programs.

NOTE L - PENSIONS

Summary of Significant Accounting Policies

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information About the Pension Plan

Plan Description - PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.state.pa.us.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE L - PENSIONS (Continued)

Benefits Provided - PSERS provides retirement, disability and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least one year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum three years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%. depending on membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Contributions

Members Contributions

- Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.
- Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.
- Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with services rendered on or after January 1, 2002.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE L - PENSIONS (Continued)

• Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and the Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Employer Contributions

The School District's contractually required contribution rate for the fiscal year ended June 30, 2016, was 25.00% of covered payroll, actuarially determined as an amount that, when combined with employee contributions is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the plan from the School District were \$29,998,000 for the year ended June 30, 2016.

<u>Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2016, the School District reported a liability of \$392,046,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2014 to June 30, 2015. The School District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2015, the School District's proportion was 0.9051%, which was an increase of 0.0120% from its proportion measured as of June 30, 2014.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE L - PENSIONS (Continued)

For the year ended June 30, 2016, the School District recognized pension expense of \$37,155,000. At June 30, 2016, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	_	Deferred Outflows of Resources	Deferred Inflows of Resources
GOVERNMENTAL ACTIVITIES			
Difference between expected and actual experience Changes in assumptions	\$	-	\$ 1,574,000
Net difference between projected and actual		-	-
investment earnings		-	772,000
Changes in proportions Difference between employer contributions and		12,605,000	-
proportionate share of total contributions		1,263,000	-
Contributions subsequent to the measurement			
date	_	29,176,000	
	\$_	43,044,000	\$ 2,346,000
BUSINESS-TYPE ACTIVITIES			
Difference between expected and actual experience	\$	-	\$ 44,000
Changes in assumptions		-	-
Net difference between projected and actual investment earnings		_	22,000
Changes in proportions		355,000	,
Difference between employer contributions and		20,000	
proportionate share of total contributions Contributions subsequent to the measurement		36,000	-
date	_	822,000	-
	\$_	1,213,000	\$ 66,000

\$29,998,000 reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the new pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	_	Governmental Activities	Business-Type Activities			
2017	\$	1,936,000	\$	55,000		
2018		1,936,000		55,000		
2019		1,936,000		55,000		
2020	_	5,714,000		160,000		
	\$ <u></u>	11,522,000	\$	325,000		

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE L - PENSION PLAN (Continued)

Actuarial Assumptions - The total pension liability as of June 30, 2015, was determined by rolling forward the System's total pension liability as of the June 30, 2014 actuarial valuation to June 30, 2015, using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial Cost Method Entry Age Normal level % of pay
- Investment Return 7.5%, includes inflation at 3.00%
- **Salary Increases** Effective average of 5.50%, which reflects an allowance for inflation of 3.00, real wage growth of 1% and merit or seniority increases of 1.50%
- Mortality rates were based on the RP-2000 Combined Healthy Annuitant Table (male and female) with age set back three years for both males and females. For disabled annuitants, the RP-2000 Combined Disabled Tables (male and female) with age set back seven years for males and three years for females.

The actuarial assumptions used in the June 30, 2014 valuation were based on the experience study that was performed for the five-year period ending June 30, 2010. The recommended assumption changes based on this experience study were adopted by the Board at its March 11, 2011 Board meeting and were effective beginning with the June 30, 2011 actuarial valuation.

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected allocation.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE L - PENSIONS (Continued)

The plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Public markets global equity	22.5%	4.8%
Private markets	15.0%	6.6%
Private real estate	12.0%	4.5%
Global fixed income	7.5%	2.4%
U.S. long treasuries	3.0%	1.4%
TIPS	12.0%	1.1%
High yield bonds	6.0%	3.3%
Cash	3.0%	0.7%
Absolute return	10.0%	4.9%
Risk parity	10.0%	3.7%
MLPs/infrastructure	5.0%	5.2%
Commodities	8.0%	3.1%
Financing (LIBOR)	<u>-14.0%</u>	1.1%
	100.0%	

Discount Rate - The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the net pension liability, calculated using the discount rate of 7.50%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50%) or one percentage point higher (8.50%) than the current rate:

		Current	
	1%	Discount	1%
	Decrease	Rate	Increase
	6.50%	7.50%	8.50%
School District's proportionate share of the net pension liability	\$ 483,236,000	\$ 392,046,000	\$ 315,403,000

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE L - PENSIONS (Continued)

Pension Plan Fiduciary Net Position - Detailed information about PSERS's fiduciary net position is available in the PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.state.pa.us.

NOTE M - COMPENSATED ABSENCES AND EARLY RETIREMENT INCENTIVE PLAN

School District employees who are required to work on a 12-month schedule are credited with vacation at rates which vary with length of service or job classification. Vacation (for most employee categories) may be taken or accumulated within certain limits and is paid prior to retirement or termination at the employee's current rate of pay.

The liability to current employees is estimated and will change since unused vacation will be paid at the rate of pay in effect at the time of separation. These accumulated leaves are recorded as an expenditure in the period taken or as an accrued expenditure in the fiscal year of separation. Termination compensation payable in future years, which was \$1,444,673 at June 30, 2016, is recorded in compensated absences on the statement of net position.

The School District pays various per diem rates to retirees for unused sick time. Compensation payable in future years, which was \$2,831,414 at June 30, 2016, is recorded in compensated absences on the statement of net position.

NOTE N - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

Plan Description

The School District provides medical and prescription drug insurance benefits to eligible retired employees, spouses and dependents through a single-employer defined benefit plan. The benefits, benefits level, employee contribution and employer contribution are administered by School District Supervisors and can be amended by the School District through its personnel manual and union contracts. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a stand-alone financial report. The activity of the plan is reported in the School District's General Fund.

Funding Policy

The School District negotiates the contribution percentage between the School District and employees through union contracts and personnel policy. The required contribution rates of the employer and the members vary depending on the applicable agreement. The School District currently contributes enough money to the plan to satisfy current obligations on a pay-as-you-go basis. The costs of administering the plan are paid by the School District.

NOTE N - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

Annual OPEB Cost and Net OPEB Obligation

The School District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

The components of the School District's annual OPEB cost for the year, the amount actually contributed to the plan and changes in the School District's net OPEB obligation to the plan are as follows:

Normal cost			\$	466,484						
Amortization of unfunded actuarial accrued liability										
1A	NNUAL REQUIRED CONTR	RIBUTION (ARC)		879,105						
Interest on net O	PEB obligation			224,786						
Adjustment to AF	RC			(306,665)						
1A	NNUAL OPEB EXPENSE			797,226

Funded Status and Funding Progress

According to the actuarial report dated July 1, 2015, the actuarial accrued liability for benefits was \$6,721,147 and the actuarial value of assets was \$0 as of June 30, 2016, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$115,990,171, and the ratio of the UAAL to the covered payroll was 5.79%.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE N - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

The schedule of funding progress, presented as required supplementary information on page 60, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2015 actuarial valuation, the entry age normal cost method was used. The actuarial assumptions included a 4.5% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 7.0% initially, reduced by decrements of .5% to an ultimate rate of 5.5% in 2016. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2016, was 28 years.

NOTE O - COMMITMENTS AND CONTINGENCIES

There are a number of tax assessment appeals in the Court of Common Pleas of Montgomery County from the decisions of the Board of Assessment Appeals. Legal counsel for the School District cannot give an opinion on the outcome of these appeals nor can they reasonably estimate the financial impact.

NOTE P - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. It is the policy of the School District to purchase commercial insurance for the risks of loss to which it is exposed, including workers' compensation and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE Q - JOINT VENTURE

The School District is a participating member of the North Montco Technical Career Center (the "Center"). The Center is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The Board of School Directors of each participating district must approve the Center's annual operating budget. Each participating district pays a pro rata share of the Center's operating costs based on the number of students attending the Center from each district. The School District's share of the Center's operating costs for 2015-2016 was \$3,633,934.

On dissolution of the Center, the net position of the Center will be shared on a pro rata basis of each participating district's current market value of taxable real property as certified by the Pennsylvania State Tax Equalization Board. However, the School District does not have an equity interest in the Center, as defined by GASB Statement No. 14, except a residual interest in net assets upon dissolution that should not be reflected on the basic financial statements. Complete financial statements for the Center can be obtained from the Center's administrative office.

In June 2010, the District entered into a long-term sublease agreement with the Center through May 2031 for a portion of the debt service payments on the Center's School Lease Revenue Bonds, Series of 2010.

Future minimum sublease payments are as follows:

Year Ending June 30,	
2017	\$ 184,40
2018	189,01
2019	195,92
2020	200,53
2021	207,45
2022-2026	1,164,02
2027-2031	1,419,88
	\$ <u>3,561,22</u>

NOTE R - DONATED FOODS

The School Nutrition Services Fund generally contains inventories which consist of both food commodities donated by the federal government and other food and supply inventories. Donated food inventory is valued at last unit cost in accordance with the recommendations of the Food Nutrition Service of the Department of Agriculture and are expensed as used. There was \$110,125 in donated foods in the Proprietary Fund's inventory balance at June 30, 2016.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2016

NOTE S - SELF-INSURANCE

In July 2011, the School District elected to sponsor a self-insured employee welfare benefit plan for health care coverage. An administrative services agreement was signed with a third-party insurance company (claims administrator) to administer the costs and claims associated with the plan. The agreement required the School District to establish a deposit with the administrator. These funds are reported as prepaid expenses on the statement of net position in the amount of \$3,256,294. The deposit will be used to pay claims, retention charges and broker commissions incurred prior to but paid after the date of determination. The deposit is intended to secure only the School District's obligations to the claims administrator and has no effect, application, or operation regarding the School District's direct obligation to the benefit program. The claims administrator may, in its discretion, require a greater or lesser deposit amount from the School District to secure the School District's obligations under the agreement. If the claims administrator requires a lesser amount, the School District will receive a refund or credit.

See accompanying notes to the budgetary comparison schedule.

NOTES TO THE BUDGETARY COMPARISON SCHEDULE YEAR ENDED JUNE 30, 2016

NOTE A - BUDGETARY INFORMATION

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. An annual appropriated budget is adopted for the General Fund. All annual appropriations lapse at fiscal year-end. Project-length financial plans are adopted for all Capital Project Funds.

The School District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. In January, the School District must make the Act 1 preliminary budget available for public inspection 20 days prior to the School Board vote.
- 2. The School Board of Directors must approve the Act 1 preliminary budget 90 days prior to the Pennsylvania primary election.
- 3. The operating budget includes proposed expenditures and the means of financing them for the fiscal year commencing the following July 1.
- 4. Public hearings are conducted at the School District offices to obtain taxpayer comments.
- 5. Prior to July 1, the budget is legally enacted through passage of an ordinance.
- 6. The Business Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the School Board.
- 7. Formal budgetary integration is employed as a management control device during the year for the General Fund. Formal budgetary integration is not employed for the Special Revenue Funds. Formal budgetary integration is also not employed for the Debt Service Fund because effective budgetary control is alternatively achieved through general obligation bond indenture provisions.
- 8. Budgeted amounts are as originally adopted or as amended by the School Board.

All budget amounts presented in the accompanying required supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions to the annual budgets during the year).

NOTES TO THE BUDGETARY COMPARISON SCHEDULE YEAR ENDED JUNE 30, 2016

NOTE B - EXCESS OF EXPENDITURES OVER APPROPRIATIONS

For the year ended June 30, 2016, expenditures exceeded appropriations in the following General Fund department levels (the legal level of budgetary control):

Facilities acquisition, construction and improvement services

\$ 4,187,360

These excess expenditures were funded by available fund balance in the General Fund.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

To the Board of School Directors North Penn School District Lansdale, Pennsylvania

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the North Penn School District as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the North Penn School District's basic financial statements, and have issued our report thereon dated December 9, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the North Penn School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the North Penn School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the North Penn School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of School Directors North Penn School District Lansdale, Pennsylvania

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the North Penn School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Oaks, Pennsylvania December 9, 2016

Maillie LLP

Independent Auditors' Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on the Schedule of Expenditures of Federal Awards in Accordance With the Uniform Guidance

To the Board of School Directors North Penn School District Lansdale, Pennsylvania

Report on Compliance for Each Major Federal Program

We have audited the North Penn School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the North Penn School District's major federal programs for the year ended June 30, 2016. North Penn School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the North Penn School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the North Penn School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the North Penn School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the North Penn School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

To the Board of School Directors North Penn School District Lansdale, Pennsylvania

Report on Internal Control Over Compliance

Management of the North Penn School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the North Penn School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the North Penn School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Schedule of Expenditures of Federal Awards Required By the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the North Penn School District as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the North Penn School District's basic financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the Uniform Guidance) and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole.

To the Board of School Directors North Penn School District Lansdale, Pennsylvania

Purpose of this Report

Maillie LLP

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Oaks, Pennsylvania December 9, 2016

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AND CERTAIN STATE AWARDS YEAR ENDED JUNE 30, 2016

NOTE A - BASIS OF ACCOUNTING

All expenditures included in the schedule of expenditures of federal and certain state awards are presented on the basis that expenditures are reported to the respective federal and state grantor agencies. Accordingly, certain expenditures are recorded when paid and certain other expenditures are recorded when the federal obligation is determined.

NOTE B - FEDERAL EXPENDITURES

The schedule of expenditures of federal and certain state awards reflects federal expenditures for all individual grants, which were active during the fiscal year.

NOTE C - DONATED FOODS

Donated foods were valued according to cost estimates provided by the U.S.D.A.

NOTE D - PROGRAM DISCLOSURES

U.S. Department of Education

Funds passed through Pennsylvania Department of Education under Title I are used primarily to provide education to economically disadvantaged children. Funds received under other grants are used to support instructional programs.

U.S. Department of Agriculture

Funds passed through the Pennsylvania Departments of Education and Agriculture are used to provide nutritional meals to economically disadvantaged children.

NOTE E - INDIRECT COST RATES

The District has not elected to use the 10% de minimis indirect cost rate as allowed in the Uniform Guidance, Section 414.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2016

A. SUMMARY OF AUDITORS' RESULTS

- 1. The auditors' report expresses an unmodified opinion on the financial statements of the North Penn School District.
- 2. No significant deficiencies relating to the audit of the financial statements are reported in the Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*.
- 3. No instances of noncompliance material to the financial statements of the North Penn School District were disclosed during the audit.
- 4. No significant deficiencies relating to the audit of the major federal award programs are reported in the Independent Auditors' Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on the Schedule of Expenditures of Federal Awards in Accordance With the Uniform Guidance
- 5. The auditors' report on compliance for the major award programs for the North Penn School District expresses an unmodified opinion.
- 6. There were no audit findings that are required to be reported in accordance with the Uniform Grant Guidance.
- 7. The programs tested as major programs include:

Program	CFDA
IDEA	84.027
Keystones to Opportunity	84.371

- 8. The threshold used for distinguishing Types A and B programs was \$750,000.
- 9. North Penn School District was determined to be a low-risk auditee.

B. FINDINGS - FINANCIAL STATEMENTS AUDIT

None.

C. FINDINGS AND QUESTIONED COSTS - MAJOR FEDERAL AWARD PROGRAMS AUDIT

None.
